Hey Alicia-

I just wanted to let you know that I successfully logged into the site and I must admit I was very impressed, I particularly appreciate the communication log. It looks like you guys are hard at work for me and I truly appreciate it. I will be referring a few people to you, I just need to check with them and make sure it is okay to give you their contact information.

In addition I have attached the updated credit report I received from Experian, as I receive additional correspondence I will be sure to forward them to you.

Again I thank you for working hard for me, and look forward to seeing the continued improvements applied to my credit report.

Best Regards,

Kiamesha
